

POSITION POSTING – Junior Research Analyst - ESG Data

Location: London, UK.

This is a unique opportunity for a junior level analyst, interested in ESG investing and alternative data research. You will be joining a high-profile backed Fintech firm supporting our VP of ESG data research, based in London.

Applicants should be available immediately or ASAP. Please submit your CV and cover letter explaining your interest in ESG investing & data.

COMPANY

Headquartered in London, with offices in NYC and Shanghai, FinTech firm Neudata is the only objective and neutral data scouting service that is dedicated to finding alpha-generating data for investment managers. In just four years, Neudata has grown to be the number one of the leading providers of data scouting services to investors globally. We are currently expanding our ESG research products and services, designed to help institutional investors with ESG data integration.

Neudata's Software as a Service (SaaS) catalogue of 5000+ dataset reports provide tools for users to easily search, source, compare and manage the best global alternative data providers, while leveraging real-time insights from its team of expert research analysts based in London, New York and Shanghai.

JOB DESCRIPTION

The work involves research into companies that produce ESG data. The analyst will conduct research calls with data providers and produce research reports for our data solutions and services. This is an opportunity to become a key team member at our firm.

ROLE RESPONSIBILITIES

- Writing research reports on ESG datasets.
- Carrying out desk research and speaking with data providers directly over telephone/video calls.
- Contribute to product development for our ESG search product.
- Updating information and research on existing datasets.
- Provide administrative support for client consultancy calls.
- The role is primarily of a qualitative rather than quantitative nature.

This job requires a thoughtful, organized and entrepreneurial professional to think creatively about the best ways to develop our service and grow our business. More than specific skills, we want to add someone to our team who has good common sense, energy, and a natural desire to learn and make a difference amongst a team of seasoned and open-minded professionals.

KEY QUALITIES

- 1+ years of work experience in any field related to ESG investing ideally in the financial services industry or from an alternative data background.
- Analytical and intellectually curious – strong interest in ESG is crucial.
- Acute problem-solving skills with an ability to think creatively and find 'outside of the box' solutions.
- Rigor and a strong work ethic with attention to detail.
- Strong organizational and multi-tasking skills.

This is a fabulous opportunity to be part of an innovative start-up at the centre of a data-driven paradigm shift in alternative data solutions for the ESG industry.

COMPENSATION

- Base salary and bonus dependent on previous experience.
- 25 days of holiday.
- Two days study leave.
- Two paid volunteering days.

Applicants should be available immediately. Please submit your cover letter and CV to hr@neudata.co
