

POSITION POSTING: Spanish & Portuguese Speaking Graduate
Location: London, full-time

This is a unique opportunity for a graduate fluent in Spanish & Portuguese and English to join a high-profile angel-backed FinTech start-up. Part of a small, dynamic and fast-paced team, you will be based in our London office. Applicants should be available immediately or ASAP.

COMPANY

Neudata is headquartered in London and operates globally. We help sophisticated investment managers find new data sources, alternative data, that can provide unique, timely and granular records of often imperceptible economic activity. Neudata's alternative data expertise lies in uncovering unique datasets from non-conventional sources that are not available on established and commonly used data platforms. We deliver our service via our 'Scout' online 'software as a service' platform and expert consultancy.

The Neudata team and its global data-scouting network have been at the forefront of data innovation for asset management. We work with hedge fund clients worldwide who manage more than \$7tn in assets.

We have grown our business significantly in the last year and are now looking for a native Spanish/Portuguese speaking graduate to join our team.

JOB DESCRIPTION

The work involves research into companies that produce alternative data and datasets. The analyst will conduct research calls with data providers and produce research reports for our data solutions and services. This is an opportunity to become a key team member at our firm.

ROLE RESPONSIBILITIES

- Conducting phone and in person research calls with data and analytics providers
- Must be fluent in Spanish & Portuguese and English
- Gathering data and analysis of alternative data sources
- Writing research reports
- Scheduling meetings and liaising with multiple external partners and firms
- Updating information and research on existing datasets
- Ongoing development of our due diligence questionnaire and analysis techniques
- The role is primarily of a qualitative rather than quantitative nature

This job requires a smart, organised, entrepreneurial graduate or young professional to think creatively about the best ways to develop our service and brand and grow our business. More than specific skills, we really want to add someone to our team who has good common sense, energy, and a real desire to learn and make a difference amongst a team of seasoned and open-minded professionals. Independent, open, reliable, our new recruit will be able to tailor the extent of the job in line with their capacities and analytical/creative energy.

KEY SKILLS

- Excellent spoken and written Spanish/Portuguese and English in order to write reports and produce content in English
- Rigor and a strong work ethic with attention to detail
- Strong organisational and multi-tasking skills are crucial
- Must be eligible to work in UK

This is a fabulous opportunity to be part of an innovative start-up which is at the centre of a data driven paradigm shift in the Asset Management and FinTech industries. Applicants should be available immediately.

Please submit your application and CV to hr@neudata.co
